

2016-2017 Competition Judging Categories

As we judge the websites and apps, we assign a score for each of the four below categories. The total of these categories will become the student's project score.

1. **Content** - Student appears knowledgeable about their website/app topic. Content is clear and easy to understand.
2. **Aesthetics** - Does it look good? Do the design choices match the website's content and enhance usability?
3. **Ease of Use** - Is the site responsive? One can easily navigate around the site.
4. **Code** - Is the code clean and correct?
